Some of the key gameplay features include all-new ball physics, allowing players to shoot with more accuracy and control; more responsive player animations, allowing players to feel like they are in the game; the addition of more realistic player ball behaviours such as varying flick shots; and brand new player control feel, making driving and passing easier in more ways than ever before. For more details on what's new in FIFA 22, visit the official website: www.fifa.com/en/fifa-22/deluxe-edition-preorder-1724638 Amazon.co.uk/Wii U/Here you can explore the Deluxe Edition contents: • Add more ways to play football with the all-new Player Impact Engine, allowing you to make more decisive plays on the ball, further enhancing your ability to attack and create chances. • Master every aspect of the game with the all-new Zones at the Edge of the Box mode, a deep, interactive training mode that puts your skills to the test and gives you control over where and how your team plays. • Step up to a new standard of technical presentation with stunning new lighting, an overhauled camera system and new 360 degree views of the pitch. **Gameplay Tips** • Players running with the ball will accelerate at different speeds depending on how they are running and the speed of the ball. To hone your skills, head to the Pro Training section of the FIFA 22 Training hub. • Foot positioning and ball control are critical at all times. The distance from your player to the ball, and vice-versa, has a big influence on how you perform and attack your opponent. • Speed of the ball is essential for attacks and chances. Increase the speed at which the ball moves towards you, or move to cover a wider distance. There are countless combinations that can be used to generate space and attack. • Keep your focus on the ball at all times. If you lose the ball you will not only lose possession but will lose valuable time. Focus on keeping the ball in your possession with quick touches, challenges and accurate passes. Take care to avoid dropping it, even when out of play. • Attacking is the most important aspect of the game. Use all available space and attack as quickly as you can. • Successful players assess situations quickly and adapt to new situations without hesitation. Make

What's new in Fifa 22:

- In FIFA 19, Attacking Dribbles (Dribbling variations) could be defined by specific attributes: speed, angle, body part used.
- Tackles now used a 'instrumental' or 'pop-up' methodology versus 'base' or 'summation'.
- A new Pro system that gives you total control over each player's individual attributes. Each has up to five dynamic attributes. Any attribute that is a 'top' or 'double top' attribute will impact a player's Strength, Speed, Stamina, Technique and Trickery.
- A new Youcef reward system that rewards high-scoring users with bigger rewards and more chances to unlock things.
- Added context to Player Phase Timings when drawing.
- Added Yes, No and Cancel sub options to the announce menu to show non-contingencies (like getting branded with a kit number or players name).
