what you can and cannot do with your work as a student. If you write or create content it's important that you understand your legal rights. Copyright law is important. So stay safe, keep your work safe. Copyright law can be so complicated and so unclear that it can be overwhelming. This site provides you with all the information and practical help you need. Learn how to protect your original works, what you can do with your work, and the legal options you have. Students, professors, teachers, and other people that are engaged in intellectual production (creating content) should be aware of the legal rights related to their content. Copyright law is important and this site provides you with all the information and practical help you need. "It's not that the law is necessarily too complex, it's just that we've managed to get into a situation where anybody who has a genuine need for advice is forced to get it second-hand, by way of a lawyer or a politician" "If you can find a lawyer who knows what he is doing you should be able to buy a pig in a poke" Evelina Moschodimou on What is the difference between copyright and copyright law? "The copyright and the copyright law are two completely

different things" "For the experts it is just like French and German or Italian, for the ordinary person it is pretty much as much as knowing what is right and what is wrong I have always believed that there are 5 basic principles that should be applied in order to ensure the maintenance of a sound system of protection for intellectual property. 1. Intellectual property is owned by someone 2. Intellectual property has creative potential 3. Intellectual property makes something unique, valuable and may be copied 4. Intellectual property makes money 5. Intellectual property may be forged or copied 595f342e71
