Each document can have a default folder to put it in, or it can be saved to an existing folder. ## Changing the Default Folder Photoshop saves your documents to a default folder that's named after your computer. For example, your _Documents_ folder on your Windows computer might have some files saved inside it named _Adobe Photoshop CS5_. But what if you want to save a document somewhere else? The Solution menu includes the commands shown in Figure 3-7, which let you change the default folder to any location on your hard drive. The default folder for documents in your computer can be changed by clicking the Change Default Location button. It will change to a folder on the open hard drive, as shown in Figure 3-7. JPEG images usually have a higher resolution, but RAW images are raw. What's the difference between RAW images and JPEG images? If you shoot RAW images, it means that you can change the image as much as you want using Photoshop. JPEG images can only be changed by entering the image in Photoshop or Photoshop Elements. The JPEG image itself cannot be changed. It has already been edited and is saved as a JPEG image. There are two types of JPEG images, depending on their compression level. I've overridden the OnNavigationFailed event handler for a metro app (How to: override the system-generated content for a page in a metro app) to show a login screen when the user navigates away from the app. This is working great when I am navigating directly to a page and can get the desired effect using NavigationHelper.GetNavigationTarget() to get the current navigation target: private void OnNavigationFailed(object sender, NavigationFailedEventArgs e) { var page = NavigationHelper.GetNavigationTarget(); NavigationHelper.ShowLoginScreen(page); } I'd like to override the title for the "open" menu item of a menu item. I've looked at the Windows.UI.Xaml.Controls.MenuItem ControlTemplate, which indicates that there's a TextBlock or a TextBlock inside the Button, but I haven't found a way to access the TextBlock to override the title. How do I access the title of a Windows 8 menu item's menu item? A: Try something like this void onLoaded(object sender, Windows.UI.Xaml.Controls.LoadedEventArgs e) {

Generation and polymerization of stereoregular 5-methyl-3-pentene-1-ol-derived oligomers through homogeneous catalysis: unexpected high stereoselectivity of the polymerization of the hydroxyl group-terminated monomer by the 1-tosyloxy-1-diphenylphospholanium catalyst. A series of 5-methyl-3-pentene-1-ol-derived oligomers were produced in the living polymerization using 1-tosyloxy-1-diphenylphospholanium trifluoromethanesulfonate (DTBPP) as a chiral catalyst. The polymerization was highly stereospecific and gave predominantly (S)-oligomers, affording the following syndiotactic propylene homopolymers as the main products: 74-99% syndiotacticity, 0.17-1.12% exo-cyclicity, and 22.9-35.6% meso-phenylcyclohexane character. This catalyst gave only a trace amount of (M)-oligomer. The polymerization was found to proceed in high stereoselectivity when the reaction was conducted in the 1,2-dichloroethane solution with air as the oxidant. On the basis of the results of the structure analysis, the polymerization is thought to take place by the nucleophilic attack of the hydroxyl group of the monomer to the transition-metal center of the catalyst. In contrast, no stereospecific polymerization was observed in the presence of copper salts.July 1, 2011 A Greek Left-Party election candidate, Ilias Panagiotaros, has been detained after he said he wanted to kidnap a political rival and hang him from the Parthenon. Panagiotaros, 38, was running for the Greek Left-Party in the upcoming September election against Prime Minister Antonis Samaras. "This is not political, it is a personal campaign that I have carried out for years," he said in a statement posted on Facebook. "I needed a pretext to stage a kidnapping of a political enemy of mine, who was spreading lies about me in the press for years. The plan was to then hang him from the Parthenon at dawn to prove I can do it." Panagiotaros said he was sorry about any harm caused to the rival
